

# **SAFETY DATA SHEET**

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Revision: 09/17/2021

## SECTION 1: Identification

**Product identifier** 

Product name 2-Standard Comparator, Orthophosphate (hi range), Stannous Chloride, 20 & 40 ppm

Product number 9026

Recommended use and

restrictions

Use in accordance with manufacturer instruction for water analysis. This product contains sealed liquid chemicals that are hazardous if released. DO NOT USE apparatus if a chemical

leak is suspected. For professional use only.

Manufacturer Taylor Technologies, Inc.

31 Loveton Circle Sparks, MD 21152

Local: (410) 472-4340 – 8am – 5pm EST Toll-free: (800) 837-8548 – 8am – 5pm EST

**Emergency phone number** 

CHEMTREC, United States 1-800-424-9300 – 24-hour service CHEMTREC, International +1 703-741-5970 – 24-hour service

## SECTION 2: Hazard(s) Identification

Physical hazards Corrosive to metals Category 1 **Health hazards** Eve damage/irritation Category 1 Skin corrosion/irritation Category 1B Sensitization, skin Category 1 Sensitization, respiratory Category 1 Germ cell mutagenicity Category 2 Carcinogenicity Category 1 Reproductive toxicity Category 1B Single target organ toxicity, repeated exposure Category 1 Acute aquatic toxicity hazard Category 3

Environmental hazards Label elements

Hazard pictograms

Signal word Danger

Hazard statements May be corrosive to metals. Causes severe skin burns and serious eye damage. May cause

allergy or asthma symptoms or breathing difficulties if inhaled. May cause allergic skin reaction. Suspected of causing genetic defects. May cause cancer. May damage fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. Harmful to aquatic

life.

Precautionary statements

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been

read and understood. Do not breathe mist or vapor. In case of inadequate ventilation wear respiratory protection. Wash skin thoroughly after handling. Do not eat, drink, or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection if contact is likely to occur. Contaminated work clothing must not be allowed out of the workplace.

Keep only in original container. Avoid release into the environment

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present

and easy to do. Continue rinsing. Immediately call a physician or poison control center. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (OR HAIR): Immediately take off all contaminated clothing. Rinse skin with plenty of water. Wash contaminated clothing before reuse. IF SKIN IRRITATION OR RASH OCCURS: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a physician or poison control center. IF EXPERIENCING RESPIRATORY SYMPTOMS: Call a

physician or poison control center. IF EXPOSED OR CONCERNED: Get medical advice/attention. Absorb spillage to prevent material damage. Collect spillage.

Storage Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Keep

tightly capped. Store out of direct sunlight between 36°F-85°F.

Disposal Dispose of contents/container in accordance with local/regional/national/international

regulations.

Hazards not otherwise

classified

Not applicable

SECTION 3: Composition/Information on Ingredients				
	Mixture			
	Chemical name	Common name and synonyms	CAS number	% w/w
	Water	Dihydrogen oxide	7732-18-5	80-100
	Hydrochloric acid	Hydrogen chloride	7647-01-0	15-20
	Cobalt(II) chloride, hexahydrate	Cobaltous chloride, hexahvdrate	7791-13-1	1-5

## SECTION 4: First-Aid Measures

#### If inhaled

Remove individual to fresh air. Seek medical advice/attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

#### In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops. Chemical burns must be treated by a physician. If eczema or rash develops, seek medical attention.

#### In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

#### If swallowed

**Call a physician or poison control center immediately.** Rinse mouth. Give 1-2 glasses of water. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Provide physician with a copy of this document.

#### Most important symptoms and effects, both acute and delayed

Direct skin or eye contact may cause corrosive burns. Symptoms may include pain, redness or swelling. Scarring or permanent damage, including blindness, could result. Skin contact may cause allergic skin reaction, dermatitis or rash. Inhalation may cause severe respiratory irritation, such as coughing and wheezing. Inhalation could result in pulmonary edema, symptoms—chest pain, shortness of breath—may be delayed. Inhalation may cause allergy or asthma symptoms or breathing difficulties. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus, and possibly the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations, and bleeding. Encapsulated liquid contains chemical(s) suspected of causing genetic defects, cancer, or damage to fertility or the unborn child. DO NOT USE apparatus if chemical leak is suspected.

Refer to section 11 of the SDS for delayed and immediate effects and chronic effects from short- and long-term exposure. Refer to section 7 for precautions for safe handling.

## Indication of any immediate medical attention and special treatment needed

Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep person under observation. Symptoms may be delayed.

### **General information**

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

## **SECTION 5: Firefighting Measures**

## **Extinguishing media**

Unsuitable extinguishing Do not use a heavy water stream. Use of heavy stream of water may spread fire.

media

### Specific hazards arising from the substance or mixture

Fire hazard Not flammable Explosion hazard Not explosive

Reactivity Hazardous reactions will not occur under normal conditions.

Hazardous combustion During fire, gases hazardous to health may be formed, including toxic hydrogen chloride gas.

products

Advice for firefighters

Precautionary measures Exercise caution when fighting any chemical fire; hazardous fumes will be present.

Firefighting

Other information

equipment/instructions

Use water spray or fog for cooling exposed containers.

Protection during firefighting

Do not enter fire area without proper protective equipment, including respiratory protection.

Refer to section 9 of the SDS for flammability properties.

### SECTION 6: Accidental Release Measures

## Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not handle if pregnant or breastfeeding. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

### **Environmental precautions**

Avoid discharge into drains, watercourses, or onto the ground.

### Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of large spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

### Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

### SECTION 7: Handling and Storage

### Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

Inspect apparatus before each use, DO NOT USE if chemical leak is suspected. If a leak occurs, apparatus must be handled with protective gloves/protective clothing/eye protection/face protection for immediate disposal; refer to section 13.

Do not handle if pregnant or breastfeeding. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices.

### Conditions for safe storage, including any incompatibilities

Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS).

### SECTION 8: Exposure Controls/Personal Protection

### Occupational exposure limits

#### **US ACGIH Threshold Limit Values**

ling	2 ppm (3 mg/m <sup>3</sup> )
	2 pp (0g/iii )
Ά	0.02 mg/m <sup>3</sup>
oe	Value
ling	5 ppm (7 mg/m³)
Н	50 ppm (75 mg/m³)
910.1000)

	De

## **Biological limit values**

No biological exposure limits noted for the ingredient(s).

#### **Exposure controls**

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.

Personal protective equipment

Eye/face protection Wear appropriate safety glasses with side shields (or goggles) if contact is likely to occur.

Skin protection Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.

Body protection Wear appropriate protective clothing if contact is likely to occur

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA

approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the

exposure limits. Advice should be sought from respiratory protection suppliers.

## SECTION 9: Physical and Chemical Properties

## Information on basic physical and chemical properties

Physical state Liquid, contained in sealed apparatus

Form Liquid

Color Clear, blue to dark blue
Odor No data available
Odor threshold No data available

pH <1

Evaporation rate

Mo data available

Melting point/freezing point

range)

Flash point Not applicable Auto-ignition temperature No data available Decomposition temperature No data available Flammability (solid, gas) No data available Upper Flammability Limit No data available Lower Flammability Limit No data available Vapor pressure No data available Vapor density No data available Relative density No data available Solubility Miscible with water Partition coefficient No data available

(n-octanol/water)

Viscosity No data available

### SECTION 10: Stability and Reactivity

**Reactivity** Encapsulated liquid may be corrosive to metals if released.

**Chemical stability** Stable under recommended handling and storage conditions (refer to section 7 of the SDS).

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Freezing temperatures—always store apparatus at room temperature, or at temperatures

above 36°F. DO NOT USE apparatus if chemical leak is suspected. If a leak occurs, apparatus must be handled with protective gloves/protective clothing/eye protection/face protection and immediately disposed of in accordance with local/regional/national/international regulations.

Avoid contact with incompatible materials. Avoid release into the environment.

**Incompatible materials** Encapsulated liquid is incompatible with the following: Strong bases, strong oxidizing agents,

strong reducing agents, and metals.

**Hazardous decomposition** 

products

Hydrogen chloride.

## SECTION 11: Toxicological Information

### Information on likely routes of exposure

Inhalation Avoid inhalation of this product. The contents of this apparatus may cause allergy or asthma

symptoms or breathing difficulties if inhaled.

Skin contact Protect exposed skin from contact. Always inspect apparatus for leaks before use. Chemical

burn and/or allergic skin reaction may occur if sealed liquid comes into contact with skin.

Eye contact Avoid close eye contact. Wear eye protection. Always inspect apparatus for leaks before use.

Wash skin thoroughly after handling to prevent accidental eye contact.

Ingestion Avoid accidental ingestion by observing good hygiene practices. Wash hands thoroughly after

handling this product.

Symptoms related to the physical, chemical, and toxicological characteristics

Encapsulated liquid is highly corrisive. Exposure may cause skin or eye damage. Liquid contains ingredients that are suspected of causing genetic defects, cancer, or damage to fertility or the unborn child. Exposure may cause allergy or asthma symptoms or breathing difficulties if inhaled. Liquid may cause allergic skin reaction. DO NOT USE apparatus if chemical leak is suspected.

Refer to section 4 of the SDS for most important symptoms and effects.

Refer to section 4 of the 3D3 for most important symptoms and effect

#### Delayed and immediate effects and chronic effects from short- and long-term exposure

Acute toxicity This product is not classified as an acute toxicity hazard. Acute toxicity estimate (ATE) for the

mixture has been calculated based on chapter 3 of GHS.

0% of the mixture consists of ingredient(s) with unknown acute oral toxicity.

#### Product acute toxicity estimate (ATE)

ATEmix (Oral) >5000 mg/kg
ATEmix (Dermal) No data available
ATEmix (Inhalation) No data available

Component(s) Species Acute toxicity data

Cobalt(II) chloride, hexahydrate (CAS 7791-13-1)

LD50 (Oral) Rat 418 mg/kg (Source: Vendor)

**Reproductive toxicity** May damage fertility or the unborn child.

Specific target organ toxicity

(single exposure)

No data available

Specific target organ toxicity

(repeated exposure)

Causes damage to organs through prolonged or repeated exposure.

**Aspiration hazard** No data available

## SECTION 12: Ecological Information

Ecotoxicity Harmful to aquatic life.

Cobalt(II) chloride, hexahydrate (CAS 7791-13-1)

EC50 Crustacea (Water flea) 1.11 mg/L, 48 hours

LC50 Fish (Rainbow trout) 0.569 – 3.474 mg/L, 96 hours

Persistence and degradability No data available

Bioaccumulative potential No data available Mobility in soil No data available

Other adverse effects Large or frequent spills can have a harmful or damaging effect on the environment.

## SECTION 13: Disposal Considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.
