

# SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Revision: 05/02/2022

### SECTION 1: Identification

**Product identifier** 

Product name PAA Reagent #3
Product number R-0927; R-0927-PL

Recommended use and

restrictions
Manufacturer

Water analysis. To be used in accordance with manufacturer instructions or under the direct

guidance of the manufacturer.

Taylor Water Technologies LLC

31 Loveton Circle Sparks, MD 21152

Local: (410) 472-4340 – 8am – 5pm EST Toll-free: (800) 837-8548 – 8am – 5pm EST

**Emergency phone number** 

CHEMTREC, United States 1-800-424-9300 – 24-hour service CHEMTREC, International +1 703-741-5970 – 24-hour service

## SECTION 2: Hazard(s) identification

Physical hazardsCorrosive to metalsCategory 1Health hazardsEye damage/irritationCategory 1Skin corrosion/irritationCategory 1B

**Environmental hazards** 

Label elements
Hazard pictograms

Not currently regulated by OSHA. For additional information, refer to section 12 of the SDS.

Signal word Danger

Hazard statements Causes severe skin burns and serious eye damage. May be corrosive to metals.

Precautionary statements

Prevention Do not breathe mist or vapor. Wash skin thoroughly after handling. Wear protective

gloves/protective clothing/eye protection/face protection. Keep only in original container.

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present

and easy to do. Continue rinsing. Immediately call a physician or poison control center.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF ON SKIN (OR HAIR): Immediately take off all contaminated clothing. Rinse skin with water.

Wash contaminated clothing before reuse.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call

a physician or poison control center.

Absorb spillage to prevent material damage.

Storage Store locked up. Store in a corrosive-resistant container with a corrosive-resistant inner liner.

Keep tightly capped. Store out of direct sunlight between 36°F-85°F.

Disposal Dispose of contents/container in accordance with local/regional/national/international

regulations.

Hazards not otherwise classified Not applicable

### SECTION 3: Composition/information on ingredients

N	Л	i	X	h		r	_
- 11	71			ш	u	•	С

MIXIGIC			
Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	85–100
Sulfuric acid	Sulphuric acid; Dihydrogen sulfate	7664-93-9	5–10
Sodium molybdate	Disodium molybdate	7631-95-0	1–5

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

## SECTION 4: First-aid measures

#### If inhaled

Remove individual to fresh air. Seek medical advice/attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

#### In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical advice/attention if irritation develops. Chemical burns must be treated by a physician.

#### In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

#### If swallowed

Immediately call a physician or poison control center. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.

### Most important symptoms and effects, both acute and delayed

Direct skin or eye contact may cause corrosive burns. Symptoms may include pain, redness, or swelling. Scarring or permanent damage, including blindness, could result. Inhalation may cause severe respiratory irritation, such as coughing and wheezing. Inhalation could result in pulmonary edema, symptoms—chest pain, shortness of breath—may be delayed. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus, and possibly the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations, and bleeding.

Refer to section 11 of the SDS for delayed and immediate effects and chronic effects from short- and long-term exposure.

#### Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep person under observation. Symptoms may be delayed.

#### **General information**

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

## SECTION 5: Firefighting measures

#### Extinguishing media

Suitable extinguishing media Use extinguishing media appropriate for surrounding fire.

Unsuitable extinguishing media Do not use a heavy water stream. Use of heavy stream of water may spread fire.

### Specific hazards arising from the substance or mixture

Fire hazard Not flammable Explosion hazard Not explosive

Reactivity May be corrosive to metals.

Hazardous combustion products Sodium oxides, sulfur oxides.

#### Advice for firefighters

Precautionary measures Exercise caution when fighting any chemical fire; hazardous fumes will be present.

Firefighting Use water spray or fog for cooling exposed containers.

equipment/instructions

Protection during firefighting Do not enter fire area without proper protective equipment, including respiratory protection.

Other information Refer to section 9 of the SDS for flammability properties.

## SECTION 6: Accidental release measures

#### Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

#### **Environmental precautions**

Avoid discharge into drains, watercourses, or onto the ground.

#### Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a large spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

#### Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

### SECTION 7: Handling and storage

#### Precautions for safe handling

Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

#### Conditions for safe storage, including any incompatibilities

Store locked up. Store in corrosive-resistant container with a corrosive-resistant inner liner. Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS).

### SECTION 8: Exposure controls/personal protection

#### Occupational exposure limits

#### **US ACGIH Threshold Limit Values**

Components	Туре	Value	
Sulfuric acid (CAS 7664-93-9)	TWA	0.2 mg/m³ (thoracic particulate)	
Molybdenum (soluble compounds, as Mo)	TWA	VA 0.5 mg/m³ (respirable fraction	
US NIOSH: Pocket Guide to Chemical Hazards			
Components	Туре	Value	
Sulfuric acid (CAS 7664-93-9)	TWA	1 mg/m³	
Sulfuric acid (CAS 7664-93-9)	IDLH	15 mg/m <sup>3</sup>	
Molybdenum (soluble compounds, as Mo)	IDLH	1000 mg/m <sup>3</sup>	
US OSHA Table Z-1 Limits for Air Contaminants	(29 CFR 1910.1000)		
Components	Туре	<u>Value</u>	
Sulfuric acid (CAS 7664-93-9)	TWA	1 mg/m <sup>3</sup>	
Molybdenum (soluble compounds, as Mo)	TWA	5 mg/m³	

#### **Biological limit values**

No biological exposure limits noted for the ingredient(s).

#### **Exposure controls**

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates

should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling

this product.

Personal protective equipment

Eye/face protection Wear appropriate chemical safety goggles if contact is likely to occur.

Skin protection Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.

Body protection Wear appropriate protective clothing if contact is likely to occur.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA

approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the

exposure limits. Advice should be sought from respiratory protection suppliers.

## SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

Physical state Liquid

Form Liquid

Color Clear, colorless
Odor Odorless

Odor threshold No data available

pH <1

Evaporation rate No data available
Melting point No data available
Freezing point No data available
Initial boiling point (boiling range) No data available
Flash point No data available

Specific gravity 1.06

Auto-ignition temperature No data available Decomposition temperature No data available No data available Flammability (solid, gas) Upper Flammability Limit No data available Lower Flammability Limit No data available Vapor pressure No data available No data available Vapor density Relative density 1.06 g/mL at 22°C Solubility Soluble in water Partition coefficient No data available

(n-octanol/water)

Viscosity

No data available
Explosive properties

Not explosive
Oxidizing properties

Not oxidizing

### SECTION 10: Stability and reactivity

**Reactivity** May be corrosive to metals.

**Chemical stability** Stable under recommended handling and storage conditions (refer to section 7 of the SDS).

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials. Do not use in areas without adequate ventilation.

Incompatible materials Alkali metals, interhalogens, metal compounds, oxidizing agents, strong bases.

Hazardous decomposition

products

No hazardous decomposition products known.

## SECTION 11: Toxicological information

### Information on likely routes of exposure

Inhalation Avoid inhalation of this product. Use in a well-ventilated area.

Skin contact Protect exposed skin from contact. Use caution to avoid splashes.

Eye contact Avoid close eye contact; use caution to avoid splashes. Wear eye protection.

Ingestion Avoid accidental ingestion by observing good hygiene practices. Wash hands thoroughly after

handling this product.

Symptoms related to the physical, chemical, and toxicological characteristics

Corrosive skin/eye damage may occur. Refer to section 4 of the SDS for most important

symptoms and effects.

Acute toxicity This product is not classified as an acute toxicity hazard. Acute toxicity estimate (ATE) has

been calculated based on chapter 3 of GHS.

#### Product acute toxicity estimate (ATE)

ATEmix (Oral) >2500 mg/kg
ATEmix (Dermal) No data available

ATEmix (Inhalation) >5 mg/L

Component(s) Species Acute toxicity data

**Sulfuric acid (CAS 7664-93-9)** 

LD50 (Oral) Rat 2140 mg/kg
LD50 (Dermal) Rabbit No data available
LC50 (Inhalation) Rat No data available

Sodium molybdate (CAS 7631-95-0)

LD50 (Oral) Rat 2733 mg/kg
LD50 (Dermal) Rabbit No data available

LC50 (Inhalation) Rat 1.93 mg/L

Skin corrosion/irritation Causes severe skin burns.

Serious eye damage/eye irritation Causes serious eye damage.

Respiratory sensitizationNo data availableSkin sensitizationNo data availableGerm cell mutagenicityNo data available

Carcinogenicity

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096)

Not regulated

**US National Toxicology Program (NTP) Report on Carcinogens** 

Strong Inorganic Acid Mists Containing Sulfuric Acid (7664-93-9), known to be human carcinogens

Reproductive toxicity

No data available

Specific target organ toxicity

No data available

(single exposure)

Specific target organ toxicity

(repeated exposure)

No data available

Aspiration hazard No data available

SECTION 12: Ecological information

**Ecotoxicity** This product is not classified as environmentally hazardous.

Persistence and degradabilityNo data availableBioaccumulative potentialNo data availableMobility in soilNo data available

Other adverse effects Large or frequent spills can have a harmful or damaging effect on the environment.

### SECTION 13: Disposal considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.

## SECTION 14: Transport information

DOT
