

SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

SECTION 1: Identification		
Product identifier		
Product name	Silica 4 – Reagent B	
Product number	R-8008B	
Recommended use and restrictions	To be used in accordance with manufacturer instructions or under the direct guidance of the manufacturer.	
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548	
SECTION 2: Hazard(s) Identifie	cation	
Physical hazards	Not applicable	
Health hazards	Not applicable	
Environmental hazards	Not currently regulated by OSHA. For additional information, refer to section 12 of the SDS.	
Label elements Hazard pictograms	Not applicable	
Signal word	Not applicable	
Hazard statements	Not applicable	
Precautionary statements		
Prevention	Avoid contact with skin, eyes, or clothing. For contact with skin or eyes, flush 20 minutes with water. If ingested, contact physician or local poison control center. Treat symptoms as needed.	
Response	This reagent is not defined as a hazardous chemical per OSHA's Hazard Communication Standard 2012; however, use care when handling.	
Storage	Keep tightly capped. Store out of direct sunlight between 36°F–85°F.	
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.	
Hazards not otherwise classified	Not applicable	

SECTION 3: Composition/Information on Ingredients

Mixture			
Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	80-100
Sodium Molybdate Dihydrate	Sodium Molybdate Dehydrate	10102-40-6	10-30

SECTION 4: First-Aid Measures

If inhaled

Remove individual to fresh air. Seek medical advice/attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical advice/attention if irritation develops.

In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice/attention.

If swallowed

Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs. If symptoms persist or in all cases of concern, seek medical advice/attention.

Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

General information

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F F		
CTION 5: Firefighting Meas	ures	
Extinguishing media Suitable extinguishing media	Use extinguishing media appropriate for surrounding fire.	
Unsuitable extinguishing media	Do not use a heavy water stream. Use of heavy stream of water may spread fire.	
Specific hazards arising from the	substance or mixture	
Fire hazard	Not flammable	
Explosion hazard	Not explosive	
Reactivity	Hazardous reactions will not occur under normal conditions.	
Hazardous combustion products	Molybdenum oxides, sodium oxides. Other irritating fumes and smoke.	
Advice for firefighters		
Precautionary measures	Exercise caution when fighting any chemical fire; hazardous fumes will be present.	
Firefighting equipment/instructions	Use water spray or fog for cooling exposed containers.	
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.	
Other information	Refer to section 9 of the SDS for flammability properties.	

SECTION 6: Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures

Wear appropriate protective equipment and clothing during cleanup. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, watercourses, or onto the ground.

Methods and material for containment and cleaning up

Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

SECTION 7: Handling and Storage

Personal precautions, protective equipment, and emergency procedures

Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities

Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS).

SECTION 8: Exposure Controls/Personal Protection

Occupational exposure limits

US ACGIH Threshold Limit Values

Components	Туре	Value	
Sodium Molybdate Dihydrate (CAS 10102-40-6)	TWA	5 mg/m ³	
US NIOSH: Pocket Guide to Chemical Hazards			
Components	Туре	Value	
Sodium Molybdate Dihydrate (CAS 10102-40-6)	TWA	5 mg/m ³	

US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	
Sodium Molybdate Dihydrate (CAS 10102-40-6)	TWA	5 mg/m ³	

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure controls

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.
Personal protective equipment	
Eye/face protection	Wear appropriate chemical safety goggles if contact is likely to occur.
Skin protection	Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.
Body protection	Wear appropriate protective clothing if contact is likely to occur.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties

	Physical state	Liquid
	Form	Liquid
	Color	Clear, colorless or nearly colorless
	Odor	Odorless
	Odor threshold	No data available
	рН	7.6
	Evaporation rate	No data available
	Melting point	No data available
	Freezing point	No data available
	Initial boiling point (boiling range)	No data available
	Flash point	No data available
	Specific gravity	No data available
	Auto-ignition temperature	No data available
	Decomposition temperature	No data available
	Flammability (solid, gas)	No data available
	Upper Flammability Limit	No data available
	Lower Flammability Limit	No data available
	Vapor pressure	No data available
	Vapor density	No data available
	Solubility	Soluble in all proportions
	Partition coefficient (n-octanol/water)	No data available
	Viscosity	No data available
	Explosive properties	No data available
	Oxidizing properties	No data available
SEC	FION 10: Stability and Reac	tivity

Reactivity	Hazardous reactions will not occur under normal conditions.	
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS).	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.	

SECTION 11: Toxicological Information

Information on toxicological effects

Most important symptoms/effects, acute and	Direct skin contact may cause slight or mild transient irritation. Symptoms may include rednes and itching.	
delayed	Direct eye contact may cause slight or mild transient irritation. Symptoms may include stingit tearing, redness, swelling, and blurred vision.	
	Inhalation of mists can cause respiratory irritation. Symptoms may include coughing and breathing difficulties.	
	Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea.	
Acute toxicity	This product is not classified as an acute toxicity hazard.	
Skin corrosion/irritation	No data available	
Serious eye damage/eye irritation	No data available	
Respiratory sensitization	No data available	
Skin sensitization	No data available	
Germ cell mutagenicity	No data available
