

# **SAFETY DATA SHEET**

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Product identifier		
Product name	Manganese 0.8 – Reagent D	
Product number	R-8034D	
Recommended use and restrictions	To be used in accordance with manufacturer instr manufacturer.	uctions or under the direct guidance of t
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548	
CTION 2: Hazard(s) identif	fication	
Physical hazards	Flammable liquids	Category 2
Health hazards	Eye damage/irritation	Category 2A
	Specific target organ toxicity, single exposure	Category 1
Environmental hazards	Not currently regulated by OSHA. For additional ir	nformation, refer to section 12 of the SD
Signal word	Danger	
Signal word Hazard statements	Danger Highly flammable liquid and vapor. Causes seriou	s eye irritation. Causes damage to orga
<b>v</b>	Danger Highly flammable liquid and vapor. Causes seriou	s eye irritation. Causes damage to orga
Hazard statements	5	acesNo smoking. Keep container tight ipment. Use explosion-proof equipment. sures against static discharge. Wear contact is likely to occur. Wash skin
Hazard statements Precautionary statements	Highly flammable liquid and vapor. Causes seriou Keep away from heat/sparks/open flames/hot surf closed. Ground/Bond container and receiving equ only non-sparking tools. Take precautionary meas protective gloves/eye protection/face protection if thoroughly after handling. Do not breathe dust/fun	acesNo smoking. Keep container tigh ipment. Use explosion-proof equipment. sures against static discharge. Wear contact is likely to occur. Wash skin nes/gas/mists/vapors/spray. Do not eat, eenter. IF ON SKIN (OR HAIR): Immedia water. IF IN EYES: Rinse cautiously wit is if present and easy to do. Continue rins vice/attention. IN CASE OF FIRE: Use

## SECTION 3: Composition/information on ingredients

Mixture

Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	45-70
Methyl alcohol	Methanol	67-56-1	15-40
Triton X-100	Polyethylene glycol octaphenol ether; 2-[4- (2,4,4-trimethylpentan-2-yl)phenoxy]ethanol	9002-93-1	10-30
Nonhazardous and other components below reportable	Not applicable	Not applicable	0.1-1

levels

#### SECTION 4: First-aid measures

#### If inhaled

Remove individual to fresh air. Seek medical advice/attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

### In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical advice/attention if irritation develops.

#### In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice/attention.

#### If swallowed

Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs. If symptoms persist or in all cases of concern, seek medical advice/attention.

#### Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

#### Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

#### **General information**

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

## Section 5: Firefighting measures Extinguishing media

Suitable extinguishing media	Alcohol-resistant foam, carbon dioxide, dry chemical powder, or water fog.
Unsuitable extinguishing media	Do not use a heavy water stream. Use of heavy stream of water may spread fire.
Specific hazards arising from the Fire hazard	<b>substance or mixture</b> Flammable liquid and vapor. Vapors may travel considerable distance to a source of ignition and flash back. This product is a poor conductor of electricity and can be electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential static discharge, use proper bonding and grounding procedures. This material may be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights, or mechanical/electrical equipment). Vapors are heavier than air and may spread along floors.
Explosion hazard	Vapors may form explosive mixtures with air. This material may be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights, or mechanical/electrical equipment). Vapors are heavier than air and may spread along floors.
Reactivity	Hazardous reactions will not occur under normal conditions.
Hazardous combustion products	Carbon oxides, nitrogen oxides. Other irritating fumes and smoke.
Advice for firefighters Precautionary measures Firefighting	Exercise caution when fighting any chemical fire; hazardous fumes will be present. Use water spray or fog for cooling exposed containers.
equipment/instructions Protection during firefighting Other information	Do not enter fire area without proper protective equipment, including respiratory protection. Refer to section 9 of the SDS for flammability properties.

## SECTION 6: Accidental release measures

#### Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe dust/fumes/gas/mists/vapors/spray. Do not touch damaged

containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

#### **Environmental precautions**

Avoid discharge into drains, watercourses, or onto the ground.

#### Methods and material for containment and cleaning up

Ventilate the contaminated area. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Take precautionary measures against static discharge. Use only non-sparking tools. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

#### **Reference to other sections**

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

#### SECTION 7: Handling and storage

#### Personal precautions, protective equipment, and emergency procedures

Vapors may form explosive mixtures with air. Keep away from sources of ignition. NO SMOKING. Do not handle, store or open near an open flame, sources of heat or sources of ignition. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fumes/gas/mists/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

#### Conditions for safe storage, including any incompatibilities

Store in well-ventilated place. Keep cool. Keep tightly capped. Store out of direct sunlight between 36°F-85°F. Store away from incompatible materials (refer to section 10 of the SDS).

#### SECTION 8: Exposure controls/personal protection

#### Occupational exposure limits

US ACGIH Threshold Limit Valu	es			
Components		Туре	Value	
Methyl alcohol (CAS 67-56-1)		TWA	260 mg/m <sup>3</sup>	
Methyl alcohol (CAS 67-56-1)		STEL	325 mg/m³ (skii	n)
US NIOSH: Pocket Guide to Che	emical Hazards

Methyl alcohol (CAS 67-56-1)		TWA	260 mg/m <sup>3</sup>	
Methyl alcohol (CAS 67-56-1)		ST	325 mg/m³ (skii	n)
Methyl alcohol (CAS 67-56-1)		IDLH	7860 mg/m <sup>3</sup>	
US OSHA Table Z-1 Limits for A	ir Contaminants (	29 CFR 1910.1000)		
Components		Туре	Value	
Methyl alcohol (CAS 67-56-1)		PEL	260 mg/m <sup>3</sup>	
Methyl alcohol (CAS 67-56-1)		ST	325 mg/m <sup>3</sup> (skii	n)
liological limit values				
ACGIH Biological Exposure Indic	es			
Components	Value	Determinant	Specimen	Sampling Time
Methyl alcohol (CAS 67-56-1)	15 mg/L	Methanol	Urine	End of shift
<b>Exposure controls</b> Appropriate engineering controls	should be matche ventilation, or othe exposure limits. If	ed to conditions. If applica er engineering controls to exposure limits have not	ble, use process end maintain airborne le been established, m	ould be used. Ventilation rates closures, local exhaust evels below recommended naintain airborne levels to an ust be available when handling

Personal protective equipment

Eye/face protection Skin protection Body protection Respiratory protection Wear appropriate chemical safety goggles if contact is likely to occur.

Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.

Wear appropriate protective clothing if contact is likely to occur.

In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

## SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

Physical state	Liquid
Form	Liquid
Color	Orange
Odor	No data available
Odor threshold	No data available
рН	No data available
Evaporation rate	No data available
Melting point	No data available
Freezing point	No data available
Initial boiling point (boiling range)	148.46°F (64.7°C)
Flash point	49.5°F (9.7°C) Closed cup
Specific gravity	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Flammability (solid, gas)	Flammable
Upper Flammability Limit	UEL 36% v/v
Lower Flammability Limit	LEL 6% v/v
Vapor pressure	No data available
Vapor density	No data available
Relative density	No data available
Solubility	Soluble in all proportions
Partition coefficient (n-octanol/water)	No data available
Viscosity	No data available
Explosive properties	No data available
Oxidizing properties	No data available

## SECTION 10: Stability and reactivity

DECTION TO: Otability and re	sactivity
Reactivity	Hazardous reactions will not occur under normal conditions.
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS).
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Heat, sparks, open flames, and other ignition sources. Temperatures exceeding the flash point. Direct sunlight. Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Acetaldehyde, acids, chlorine, ethylene oxide, halogenated hydrocarbons, isocyanates, nitrites, organics, strong acids, strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products under normal conditions.

## SECTION 11: Toxicological information

#### Information on toxicological effects

#### Likely routes of exposure are skin/eye contact and ingestion.

Most important	Direct skin contact may cause irritation. Symptoms may include redness and itching.
symptoms/effects, acute and delayed	Direct eye contact may cause serious irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

	Inhalation of mists can cause respiratory include coughing and breathing difficultie	irritation, drowsiness, dizziness. Symptoms may es.
	Ingestion may cause gastrointestinal irrit significant quantities may result in damage	ation, nausea, vomiting, and diarrhea. Ingestion of ge to the lungs and nervous system
	Causes damage to organs.	
Acute toxicity	This product is not classified as an acute ingredient acute toxicity data.	e toxicity hazard. See below for product and individual
Manganese 0.8 – Reagent D (CAS	Mixture)	
Acute		
Dermal		
$LD_{50}$	Mouse	>2000 mg/kg
Inhalation		
LC <sub>50</sub>	Rat	>20 mg/L
Oral		
LD <sub>50</sub>	Rat	>2000 mg/kg
Components	Species	Acute Toxicity Data
Methyl alcohol (CAS 67-56-1)		
Acute		
Dermal		
LD <sub>50</sub>	Mouse	No data available
Inhalation		
LC <sub>50</sub>	Rat	116 mg/L
Oral		
LD <sub>50</sub>	Rat	1187 mg/kg
Triton X-100 (CAS 9002-93-1)		
Acute		
Dermal		
LD <sub>50</sub>	Mouse	>2000 mg/kg
Inhalation		
LC <sub>50</sub>	Rat	No data available
Oral		
LD <sub>50</sub>	Rat	500 mg/kg (point estimate)
Skin corrosion/irritation	No data available	
Serious eye damage/eye irritation	Causes serious eye irritation.	
Respiratory sensitization	No data available	
Skin sensitization	No data available	
Germ cell mutagenicity	No data available	
Carcinogenicity		
IARC Monographs. Overall Eval	uation of Carcinogenicity	
Not regulated		
OSHA Specifically Regulated Su	ubstances (29 CFR 1910.1001-1096)	
Not regulated		
US National Toxicology Program	n (NTP) Report on Carcinogens	
Not regulated		
Reproductive toxicity	No data available	
Specific target organ toxicity (single exposure)	Causes damage to organs.	
Specific target organ toxicity (repeated exposure)	No data available	
Aspiration hazard	No data available	

SECTION 12: Ecological information		
Ecotoxicity	This product is not classified as environmentally hazardous.	
Persistence and degradability	No data available	
Bioaccumulative potential	No data available	
Mobility in soil	No data available	
Other adverse effects	Large or frequent spills can have a harmful or damaging effect on the environment.	

## SECTION 13: Disposal considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.
