

# SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Revision: 04/21/2022

CTION 1: Identification		
Product identifier		
Product name	Orthotolidine	
Product number	R-0600	
Recommended use and restrictions	Water analysis. To be used in accordance with manufacturer instructions or under the direct guidance of the manufacturer.	
Manufacturer	Taylor Water Technologies LLC 31 Loveton Circle Sparks, MD 21152 Local: (410) 472-4340 – 8am – 5pm EST Toll-free: (800) 837-8548 – 8am – 5pm ES	ST
Emergency phone number		
CHEMTREC, United States	1-800-424-9300 – 24-hour service	
CHEMTREC, International	+1 703-741-5970 – 24-hour service	
CTION 2: Hazard(s) Identi	fication	
Physical hazards	Corrosive to metals	Category 1
Health hazards	Eye damage/irritation	Category 1
	Skin corrosion/irritation	Category 1B
	Carcinogenicity	Category 1B
Environmental hazards	Not currently regulated by OSHA. For add	itional information, refer to section 12 of the SDS.
Signal word	Danger	
Hazard statements	Causes severe skin burns and serious eye damage. May cause cancer. May be corrosive to metals.	
Precautionary statements		
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Wash skin thoroughly after handling. We protective gloves/protective clothing/eye protection/face protection if contact is likely to occur Keep only in original container.	
Response		or several minutes. Remove contact lenses if pres ately call a physician or poison control center.
	IF ON SKIN (OR HAIR): Immediately take off all contaminated clothing. Rinse skin with wate Wash contaminated clothing before reuse.	
	C C	and keep comfortable for breathing. Immediately c
	IF EXPOSED OR CONCERNED: Get med	dical advice/attention.
	Absorb spillage to prevent material damag	je.
Storage	Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Kee tightly capped. Store out of direct sunlight between 36°F–85°F.	
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.	

Hazards not otherwise classified Not applicable

## SECTION 3: Composition/Information on Ingredients

Mixture

Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	80-100
Hydrochloric Acid	Hydrogen Chloride	7647-01-0	5-10
3,3'-Dimethylbenzidine	Orthotolidine, o-tolidine	119-93-7	0.1–1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

### SECTION 4: First-Aid Measures

#### If inhaled

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

#### In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops.

#### In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice.

#### If swallowed

Immediately call a physician or poison control center. Rinse mouth. Give 1-2 glasses of water. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.

#### Most important symptoms and effects, both acute and delayed

Direct skin or eye contact may cause corrosive burns. Symptoms may include pain, redness, or swelling. Scarring or permanent damage, including blindness, could result. Inhalation may cause severe respiratory irritation, such as coughing and wheezing. Inhalation could result in pulmonary edema, symptoms—chest pain, shortness of breath—may be delayed. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus, and possibly the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations, and bleeding.

Refer to section 11 of the SDS for delayed and immediate effects and chronic effects from short- and long-term exposure.

## Indication of any immediate medical attention and special treatment needed

Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep person under observation. Symptoms may be delayed.

#### **General information**

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

### SECTION 5: Firefighting Measures

<b>Extinguishing media</b> Suitable extinguishing media Unsuitable extinguishing media	Use extinguishing media appropriate for surrounding fire. Do not use a heavy water stream. Use of heavy stream of water may spread fire.
Specific hazards arising from the s Fire hazard	substance or mixture Not flammable
Explosion hazard	Not explosive
Reactivity	May be corrosive to metals
Hazardous combustion products	Carbon oxides, chlorine, nitrogen oxides. During fire, gases hazardous to health may be formed, including toxic hydrogen chloride gas.
Advice for firefighters	
Precautionary measures	Exercise caution when fighting any chemical fire; hazardous fumes will be present.
Firefighting equipment/instructions	Use water spray or fog for cooling exposed containers.
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.
Other information	Refer to section 9 of the SDS for flammability properties.

## SECTION 6: Accidental Release Measures

#### Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

#### **Environmental precautions**

Avoid discharge into drains, watercourses, or onto the ground.

## Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of large spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

#### **Reference to other sections**

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

### SECTION 7: Handling and Storage

## Personal precautions, protective equipment, and emergency procedures

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

#### Conditions for safe storage, including any incompatibilities

Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS). Keep only in original container.

### SECTION 8: Exposure Controls/Personal Protection

#### **Occupational exposure limits**

#### **US ACGIH Threshold Limit Values**

Components	Туре	Value
Hydrochloric acid (CAS 7647-01-0)	Ceiling	2.98 mg/m <sup>3</sup>
US NIOSH: Pocket Guide to Chemical Hazards		
Components	Туре	Value
3,3-Dimethylbenzidine (CAS 119-93-7)	Ceiling	0.02 mg/m <sup>3</sup> (skin)
Hydrochloric acid (CAS 7647-01-0)	Ceiling	7 mg/m <sup>3</sup>
Hydrochloric acid (CAS 7647-01-0)	IDLH	50 ppm (75 mg/m³)
US OSHA Table Z-1 Limits for Air Contaminant	ts (29 CFR 1910.1000)	
Components	Туре	Value
Hydrochloric acid (CAS 7647-01-0)	Ceiling	7 mg/m <sup>3</sup>

#### **Biological limit values**

No biological exposure limits noted for the ingredient(s).

#### **Exposure controls**

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.
Personal protective equipment	
Eye/face protection	Wear appropriate safety glasses with side shields (or goggles) if contact is likely to occur.
Skin protection	Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.
Body protection	Wear appropriate protective clothing if contact is likely to occur.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

## SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state	Liquid
Form	Liquid

Color	Clear to light yellow
Odor	Pungent
Odor threshold	No data available
рН	<1
Evaporation rate	No data available
Melting point	No data available
Freezing point	No data available
Initial boiling point (boiling range)	No data available
Flash point	No data available
Specific gravity	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Flammability (solid, gas)	No data available
Upper Flammability Limit	No data available
Lower Flammability Limit	No data available
Vapor pressure	No data available
Vapor density	No data available
Relative density	No data available
Solubility	Soluble in all proportions
Partition coefficient (n-octanol/water)	No data available
Viscosity	No data available
Explosive properties	Not explosive
Oxidizing properties	Not oxidizing

## SECTION 10: Stability and Reactivity

Reactivity	May be corrosive to metals.
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS).
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Metals, strong oxidizing materials, strong bases.
Hazardous decomposition products	No hazardous decomposition products known.

## SECTION 11: Toxicological Information

Information on likely routes of exposure

Inhalation	Avoid inhalation of this product. Use in a well-ventilated area.
Skin contact	This chemical may cause severe skin burns and is anticipated to be absorbed through the skin. Protect exposed skin by wearing appropriate PPE. Wash skin thoroughly after handling this product.
Eye contact	Direct contact with eyes may cause serious eye damage. Avoid close eye contact; use caution to avoid splashes. Wear eye protection.
Ingestion	Do not ingest. Avoid accidental ingestion by observing good hygiene practices. Wash hands thoroughly after handling this product.
Symptoms related to the physical, chemical, and toxicological characteristics	Corrosive skin/eye damage may occur. Prolonged or repeated overexposure may affect the circulatory system, kidneys, liver, respiratory system, and skeletal system. This product contains material that may be carcinogenic to humans, based on sufficient evidence of carcinogenicity in experimental animals.
	Refer to section 4 of the SDS for most important symptoms and effects.
Delayed and immediate effects a	and chronic effects from short- and long-term exposure
Acute toxicity	This product is not classified as an acute toxicity hazard. Acute toxicity estimate (ATE) has been calculated based on chapter 3 of GHS. 0% of the mixture consists of ingredient(s) with unknown acute toxicity.

ATEmix (Oral)	> 2500 mg/kg	
ATEmix (Dermal)	> 5000 mg/kg	
ATEmix (Inhalation)	> 20 mg/L	
Component(s)	Species	Acute toxicity data
3,3'- Dimethylbenzidine (CAS 119	9-93-7)	
LD50 (Oral)	Not applicable	500 mg/kg (estimate)
LD50 (Dermal)	Rabbit	No data available
LC50 (Inhalation)	Rat	No data available
Hydrochloric acid (CAS 7647-01-	0)	
LD50 (Oral)	Rat	626 mg/kg (Source: vendor SDS)
LD50 (Dermal)	Rabbit	>2000 mg/kg (Source: vendor SDS)
LC50 (Inhalation)	Rat	2.2 mg/L vapor (Source: vendor SDS)
Skin corrosion/irritation	Causes severe skin burns.	
Serious eye damage/eye irritation	Causes serious eye damage	
Respiratory sensitization	No data available	
Skin sensitization	No data available	
Germ cell mutagenicity	No data available	
Carcinogenicity	May cause cancer	
3,3'- Dimethylbenzidine, Group Hydrochloric acid; Group 3 Not		
OSHA Specifically Regulated Su Not regulated	ubstances (29 CFR 1910.100	1-1096)
US National Toxicology Program	n (NTP) Report on Carcinog	ens
3,3'- Dimethylbenzidine, Reaso	nably anticipated to be a huma	an carcinogen
Reproductive toxicity	No data available	
Specific target organ toxicity (single exposure)	No data available	
Specific target organ toxicity (repeated exposure)	No data available	
Aspiration hazard	No data available	
CTION 12: Ecological Inform	ation	
Ecotoxicity	This product is not classified	as environmentally hazardous.
Persistence and degradability	No data available	
Bioaccumulative potential	No data available	
Mobility in soil	No data available	
Other adverse effects	Large or frequent spills can h	have a harmful or damaging effect on the environment.

## Dispose of contents/container in accordance with local/regional/national/international regulations.

## **SECTION 14: Transport Information**

## DOT

UN number	1789
UN Proper shipping name	Hydrochloric acid solution
Reportable Quantity	10lbs, 3,3'-Dimethylbenzidine, 5000lbs Hydrochloric acid
Class (Subsidiary risk)	8
Label(s)	8

Packing group	II
Special provisions	386, A3, B3, B15, B133, IB2, N41, T8, TP2
Packaging exceptions	154
Packaging, non-bulk	202
