

Residential Series™ Test Kits

Pool and spa owners enjoy products that are simple, accurate, and reliable. Our collection of Residential test kits and Taylor test strips are the solution for successful at-home pool/spa maintenance. We offer a wide range of products that include different combinations of tests to fit every homeowner's needs.

Instructions are written in clear, nontechnical terms and include pictograms for ease of following steps. Instruction cards are printed on waterproof paper that resists fading and tearing. Homeowners using a Residential kit or test strips can go to web.suretreat.com, enter their test results, and get precise treatment recommendations using Taylor's free online water analysis software, *sureTREAT*®.
