

The Superior Solution for At-Home Testing

Pool and spa owners enjoy products that are **simple, accurate, and reliable**. Our collection of Residential Series™ test kits are the solution for successful at-home pool/spa maintenance. We offer a **wide range of products** that include **multiple combinations of tests** to fit every homeowner's needs.

Benefits of our Residential Series Kits:

- Instructions are written in **clear, nontechnical terms**.
- **Pictograms** are provided to clarify procedure.
- Users can get precise treatment recommendations by using our **FREE online water analysis software, sureTREAT®**. Go to web.sureTREAT.com to enter results.

3-WAY (OT)

Total Chlorine .5–5 ppm
Total Bromine 1–10 ppm
pH 6.8–8.2

English: K-1000
French: K-1000F
Spanish: K-1000S

English and Spanish versions are available in case packs of twelve (K-1000-12, K-1000S-12)

3-WAY (DPD)

Free Chlorine .5–5 ppm
Total Bromine 1–10 ppm
pH 6.8–8.2

English: K-1001
French: K-1001F
Spanish: K-1001S

English, French, and Spanish versions are available in case packs of twelve (K-1001-12, K-1001F-12, K-1001S-12)

3-WAY (DPD)

Free Chlorine .25–2.5 ppm
Total Bromine .5–5 ppm
pH 6.8–8.2

English: K-1101
Spanish: K-1101S

Spanish version is available in a case pack of twelve (K-1101S-12)

6-WAY (OT)

Total Chlorine .5–5 ppm
Total Bromine 1–10 ppm
pH 6.8–8.2 (with acid & base demand)
Total Alkalinity 1 drop = 10 ppm

English: K-1003

Available in a case pack of six (K-1003-6)

6-WAY (DPD)

Free & Total Chlorine .5–5 ppm
Total Bromine 1–10 ppm
pH 6.8–8.2 (with acid demand)
Total Alkalinity 1 drop = 10 ppm

English: K-1004
Spanish: K-1004S

English and Spanish versions are available in case packs of six (K-1004-6, K-1004S-6)

9-WAY (DPD)

Free & Total Chlorine .5–5 ppm
Total Bromine 1–10 ppm
pH 6.8–8.2 (with acid & base demand)
Total Alkalinity 1 drop = 10 ppm
Calcium Hardness 1 drop = 10 ppm
Cyanuric Acid 30–100 ppm
(includes **I Never Liked Chemistry** booklet)

English: K-1005

Available in a case pack of four (K-1005-4)
